Proposal — Crypto Trading Platform

A complete, production-ready crypto **paper-trading and portfolio platform**:

- **Live market prices** (Bitcoin, Ethereum and 100+ coins), updating automatically
- Users register, log in, and get their own **profile, wallet and portfolio**
- **Paper trading:** users buy and sell with demo balances at real live prices — gains, losses, order history, the full experience
- **News feed** with the latest crypto headlines, updated automatically
- Dashboards, charts and analytics in a clean, modern dark/light interface — **mobile friendly**
